

CLEAN AGENT- Automatic Suppression System

Model No.: BT-CA101

Product Overview:

The **CLEAN AGENT** Automatic Suppression System is an advanced pre-engineered fire suppression solution designed to detect, suppress, and extinguish fires at their source. It provides fast, reliable, and residue-free protection for sensitive equipment and critical areas.

Special Features:

- Fast fire detection and suppression
- Residue-free clean agent technology
- Compact and easy-to-install design
- Suitable for enclosed and sensitive areas
- High-performance FK-5-1-12 clean agent
- Reliable automatic activation system
- Designed for critical fire protection applications
- Safe for electrical and electronic equipment

Technical Specifications:

- Product Type : Automatic Suppression System
- Agent Type : FK-5-1-12
- Capacity : 2 KG
- Weight : 3.850 KG (without Packaging)
- Operating Pressure : 15–25 Bar
- Operating Temperature : 100–130°C
- System Type : Pre-Engineered
- Activation : Automatic
- Application : Fire Suppression

Mechanical Specifications:

- Dimensions : 4.7 (L) X 14.1 (H) X 4.7 (D) in inch's
- : 120(L) X 360(H) X 120(D) in mm
- Colour : Red
- Construction : NA
